

ENGLISH SUBJECTS AT THE FACULTY OF BIOSCIENCES 2022-23

Subjects offered in English in the Biosciences Faculty during the course **2022-23** are (Please, be aware that this list is updated each course, meaning that the number of English subjects may vary from course to course):

| YEAR | SEMESTER | SUBJECT'S CODE | SUBJECT | ECTS |
|-----------------------------------|----------|----------------|--|------|
| Biomedical Sciences Degree | | | | |
| 2 | 2 | 101919 | Structure and Function of the Nervous System | 6 |
| 4 | 2 | 101931 | Immunology of Infectious Diseases | 6 |
| 4 | 2 | 101897 | Molecular and Cell Biology of Cancer | 6 |
| Biochemistry Degree | | | | |
| 4 | 2 | 100863 | Molecular Biology of Cancer | 6 |
| Biology Degree | | | | |
| 4 | 1 | 100756 | Immunology of Infectious Diseases | 6 |
| Genetics Degree | | | | |
| 4 | 1 | 105065 | Current topics on bioinformatics | 3 |
| 4 | 1 or 2 | 101958 | External practicum | 12 |
| Microbiology Degree | | | | |
| 4 | 2 | 1010071 | Immunology of Infectious Diseases | 6 |
| 2 | 2 | 101002 | Virology | 6 |

Subjects in Spanish and/or Catalan **PARTIALLY** taught in English in the Biosciences Faculty:

| YEAR | SEMESTER | SUBJECT'S CODE | SUBJECT | ECTS | % English |
|----------------------------|----------|----------------|---|------|---|
| Biochemistry Degree | | | | | |
| 4 | 2 | 100904 | Nanobiotechnology | 6 | 75% (50% theory, 100% seminars and practices) |
| 3 | 2 | 100868 | Molecular Pathology | 6 | Only seminars |
| Biology Degree | | | | | |
| 3 | 1 | 100747 | Health & Environments | 6 | 1 practice group |
| 3 | 2 | 100757 | Immunology | 9 | 1 practice group |

| | | | | | |
|-----------------------------------|---|--------|--|---|---|
| 2 | 1 | 100784 | Advanced Histology | 6 | 2 practice groups |
| 1 | 2 | 100782 | Histology | 6 | 2 practice groups |
| Genetics Degree | | | | | |
| 4 | 1 | 101978 | Control of Gene Expression in Eukaryotes | 6 | Only seminars |
| 3 | 2 | 101973 | Molecular Genetic Diagnostic | 6 | Only some seminars |
| Biotechnology Degree | | | | | |
| 4 | 2 | 100904 | Nanobiotechnology | 6 | 75% (50% theory, 100% seminars and practices) |
| Biomedical Sciences Degree | | | | | |
| 4 | 2 | 100904 | Nanobiotechnology | 6 | 75% (50% theory, 100% seminars and practices) |
| 4 | 1 | 101978 | Control of Gene Expression in Eukaryotes | 6 | Only seminars |

The **TIMETABLES 2022-23** for each degree can be found here:

TIPS FOR IN STUDENTS

IN students who enroll in the Faculty of Biosciences must enroll in a **minimum of 50% of Bioscience subjects**. The remaining 50% can be from any other Faculty at UAB. However, if you are going to enroll in subjects from different Faculties, you must consider:

- That the **schedules** are compatible (of classes and exams).
- That you have **enough time to go from one faculty building to another** (the Campus is large).
- **Many Faculties prioritize the enrollment of their own students** in some subjects. If it takes you a long time to complete your enrolment because you are waiting to enroll a subject from another Faculty, it is possible that you are ultimately not accepted. At that time, other English subjects you had in mind might be already full or have already started.

The complete list of **English subjects in all Faculties of UAB** can be found in this link:
