

Grading table Bachelor Biotechnology (BBT) Transcript of records academic year 2024-2025:

The grading table requires universities to keep track of their grading practice and culture, which is good practice in many institutions across Europe. The ECTS grading table allows for simple, transparent interpretation and conversion of grades from one system or context to another, and therefore does justice to the level of academic performance of all learners. Used correctly, it bridges different grading systems as well as different cultures in the European Higher Education Area and beyond. The grading table gives the distribution of grades for this specific study period. It presents how many students (in percentages) receive a specific grade. This provides all necessary information to convert the grade in any local grading system.

National/Wageningen University Grade	#Number awarded in reference group	grading %*	cumulative % of the grades
10	99	01	01
9.5	216	02	04
9	499	06	09
8.5	929	11	20
8	1524	17	37
7.5	1578	18	55
7	1502	17	72
6.5	1187	13	85
6	1301	15	100
TOTAAL	8835	100	

* Based on the grades of the last 3 academic years.
