

Gliding

Are you interested in seeing the world from a different perspective? Every weekend, Zweefvliegclub Deelen flies from the military airbase Deelen, located at the heart of the Veluwe. As a member you are taught to fly by one of our instructors and most people have the opportunity to fly solo within their first year. After your solo flight it is time to gather experience, study the theoretical subjects and get your license (LAPL-S). If you are interested, don't hesitate to contact us. The sky is (not) the limit!
