Geachte heer 

Op 24 januari 2022 heeft Wageningen University uw verzoek om informatie ontvangen met betrekking tot de institutionele banden van Wageningen University & Research met Israëlische universiteiten, instituties en bedrijven, en met organisaties die steun voor de staat Israël propageren.

Uw verzoek om informatie

Uw verzoek bestaat uit vier onderdelen.

Onderdelen 1 en 2 van uw verzoek richten zich op overeenkomsten aangaande studentenuitwisselingen tussen Wageningen University en Israëlische universiteiten en alle overeenkomsten aangaande institutionele samenwerking op het gebied van onderzoek en onderzoeksfinanciering, waarbij Wageningen University, Israëlische universiteiten, Israëlische instituties en/of Israëlische bedrijven betrokken zijn.

Onderdelen 3 en 4 van uw verzoek richten zich op de samenwerking en/of correspondentie met Nederlandse en internationale organisaties die zich bezighouden met religie, herdenking en bestrijding van antisemitisme.

Behandeling van uw verzoek

Bij e-mail van 25 januari 2022 hebben wij de ontvangst van uw verzoek bevestigd. Wij hebben in januari jl. een team van vier personen aangewezen dat zich met de afhandeling van uw verzoek bezig heeft gehouden. Dit team heeft in eerste instantie uitvraag gedaan bij de vijf departementen, bij het centrale archief en bij de directies van de betrokken stafafdelingen om de informatie aan te leveren die onder de reikwijdte van het verzoek valt. Bij e-mail van 17 februari 2022 hebben wij de beslissing op uw verzoek met vier weken verdaagd.

In maart en april 2022 zijn de documenten intern bij het Woo-loket aangeleverd. Het behandelend team heeft de documenten beoordeeld en verwerkt tot een concept-inventarislijst, die wij u op 7 april jl. hebben toegestuurd. U heeft daarop op 6 mei jl. gereageerd. Daarbij zijn beperkingen aangebracht op de omvang van het verzoek.

Vervolgens heeft naar aanleiding van de nadere afbakening zoals afgestemd met u een nadere interne uitvraag plaatsgevonden. Deze aanvullende informatie is in juni aangeleverd.

Parallel aan onze interne behandeling van uw verzoek heeft discussie plaatsgevonden tussen  en een afvaardiging van Nederlandse universiteiten.

D. Respect of fundamental principles and other mobility requirements

The higher education institution(s) located in a **Programme Country** of Erasmus+ must respect the Erasmus Charter for Higher Education of which it must be a holder. The charter can be found here: https://eacea.ec.europa.eu/erasmus-plus/actions/erasmus-charter_en

The higher education institution(s) located in a **Partner Country** of Erasmus+ must respect the following set of principles and requirements:

The higher education institution agrees to:

- Respect in full the principles of non-discrimination and to promote and ensure equal access and opportunities to mobile participants from all backgrounds, in particular disadvantaged or vulnerable groups.
- Apply a selection process that is fair, transparent and documented, ensuring equal opportunities to participants eligible for mobility.
- Ensure recognition for satisfactorily completed activities of study mobility and, where possible, traineeships of its mobile students.

⁷ For an easier and consistent understanding of language requirements, use of the Common European Framework of Reference for Languages (CEFR) is recommended, see <http://europass.cedefop.europa.eu/en/resources/european-language-levels-cefr>

- Charge no fees, in the case of credit mobility, to incoming students for tuition, registration, examinations or access to laboratory and library facilities. Nevertheless, they may be charged small fees on the same basis as local students for costs such as insurance, student unions and the use of miscellaneous material.

The higher education institution located in a **Partner Country** of Erasmus+ further undertakes to:

Before mobility

- Provide information on courses (content, level, scope, language) well in advance of the mobility periods, so as to be transparent to all parties and allow mobile students to make well-informed choices about the courses they will follow.
- Ensure that outbound mobile participants are well prepared for the mobility, including having attained the necessary level of linguistic proficiency.
- Ensure that student and staff mobility for education or training purposes is based on a learning agreement for students and a mobility agreement for staff validated in advance between the sending and receiving institutions or enterprises and the mobile participants.
- Provide assistance related to obtaining visas, when required, for incoming and outbound mobile participants. Costs for visas can be covered with the mobility grants. See the information / visa section for contact details.
- Provide assistance related to obtaining insurance, when required, for incoming and outbound mobile participants. The institution from the Partner Country should inform mobile participants of cases in which insurance cover is not automatically provided. Costs for insurance can be covered with the organisational support grants. See the information / insurance section for contact details.
- Provide guidance to incoming mobile participants in finding accommodation. See the information / housing section for contact details.

During and after mobility

- Ensure equal academic treatment and services for home students and staff and incoming mobile participants and integrate incoming mobile participants into the institution's everyday life, and have in place appropriate mentoring and support arrangements for mobile participants as well as appropriate linguistic support to incoming mobile participants.
- Accept all activities indicated in the learning agreement as counting towards the degree, provided these have been satisfactorily completed by the mobile student.
- Provide, free-of-charge, incoming mobile students and their sending institutions with transcripts in English or in the language of the sending institution containing a full, accurate and timely record of their achievements at the end of their mobility period.
- Support the reintegration of mobile participants and give them the opportunity, upon return, to build on their experiences for the benefit of the Institution and their peers.
- Ensure that staff are given recognition for their teaching and training activities

undertaken during the mobility period, based on a mobility agreement.

The office handles the ties between the University and the Students Union and oversees the activities of the student cells, which deal with social and political activity.

Dear '

Thank you for your email.

We would be happy to receive your students in the next academic year.

The agreement definitely enables your students to take courses outside of the Faculty of Agriculture (I recall that this was the original discussion and intention).

Attached is our fact sheet with deadlines for applications and links to courses:

Dear Jane,

Thank you very much for your feedback. I believe _____ is working on the application as we speak.

We were wondering about the status of the exchange agreement. Do you think it's feasible to offer your university as an exchange option for academic year 2018-2019 already? We will be doing our selection soon (deadline is February 1st), but we can offer your university to students who are still looking for a place after that maybe? Do you think that is feasible to already select students for 2018-2019?

Also, we were wondering, I understood that there are some additional courses available for our social sciences students in a different faculty. The link we received is:

<https://overseas.huji.ac.il/risgradcourses>, which seemed tremendously interesting for our students.

However, the link doesn't work anymore and I couldn't find the exact name of the faculty that was offering the courses. On the Erasmus+ agreement you send us back it's only mentioned for the faculty of agriculture. Are these other options still available and what would we have to include to in the agreement (and to our students) to make sure they are choosing the right courses?

My apologies for so many questions in one e-mail :)

Beste !

Er is ook een nieuwe agreement met The Hebrew University in Jeruzalem die we graag willen tekenen. Zij zijn onderdeel van het ELLS netwerk en we hebben voor deze exchange ook Erasmus+ beurzen aangevraagd (voor non-EU uitwisseling KA107). Deze agreement was al opgezet door , maar het duurde erg lang voordat wij hem terug kregen uit Israël. Dat is nu gekomen. Het is ons format, hopelijk scheelt dat met inzien. Kunnen we deze door laten tekenen?

Dear : -

It was lovely meeting you again at the ELLS Conference last week, this time in Copenhagen. This email is a way of introduction between you and Ms [redacted] the Head of the HU International Office, cc'd here. I am glad we both recognize the great opportunities for highly attractive exchange program between our leading schools in agricultural sciences, for the mutual benefits to our students. Per your concern, office will be happy to work with you on the preparation of application material to form a WUR-HUAgri exchange program within the framework of ERASMUS+.

We thought that WUR students should be allowed to attend unique courses offered by HU Faculty of Agriculture, Food & Environment, such as in water resource management, irrigation systems, water reclamation and desalinization, crop breeding for drought and water stress resistance, and more. In addition, and to address WUR interest, its students could also attend courses offered by other HU Faculties in fields such as: Middle East & Islam: Politics & IR; Israel Studies: History, Politics, Soc. & Culture; Globalization Studies; Jewish Civilization, Religion and History; Conflict and Security Studies; and Diversity in Education. Reciprocally, HU students from the Faculty of Agriculture, Food and Environment would attend courses offered by WUR that are lacking at HU.

I hope that you and [redacted] could move this forward now. Please let me know how we could help in this process.

Dear

Thank you very much for your nice e-mail. I enjoyed meeting you in person as well! We have recently become real hummus fans at home. (To the fact that we are testing the difference between hummus made with chick peas from a can compared to chick peas boiled by ourselves)

In the attachment you can find the completely signed IIA and an updated version of the courses taught in English. Some courses are taught in Dutch this year but will be taught in English next year. These courses are in this list with a remark that the language of instruction will change next year.

I am looking forward to this great cooperation!

Would you please send us the MOU with comments or when it is signed as well?

Met vriendelijke groet,
With Kind regards,

Subject: Bilateral agreement HUJI - WU

Dea,

I am still enjoying my memories of your staff week. I had such a great time!! Thank you very much!

If I remember it correctly, you have had your application deadline on the 4th of December. I am wondering if many students are interested in coming to Wageningen University? Many of our students are interested in going to your university.

About the contract, I am really, really sorry for the delay..

We are a bit lost about the MOU. We are not sure if anything needs to be changed or not? This information got missing during the transmission after her maternity leave.

For the contract, we would like to exchange 9 students in the academic years 2018 – 2020. The total number of months each way would be 36. This increased number is due to the Erasmus+ grant we received which we would like to use completely. At the moment our student is at HUJI, so we would still have 33 months left from our side, if I am correct.

I am wondering if the notation of '3x6 (months) = 18 months' for each year is okay for you on the contract?

To clarify this a bit, as mentioned the total number of months each is 36. You can divide the number of months in which way you prefer with a minimum of 3 months per student.

For example: you didn't send any students in academic year 2018-2019 so you can still send students for 36 months in academic year 2019-2020. This can be 6 students for 6 months, or 9 students for 3 months, or 8 students for 4 months, or any other number of students as long as they come at least 3 months (according to the rules of Erasmus+) and the total amount is of 36 months.

For staff, we have an Erasmus+ grant for 3 staff members (for each one week) each way. Again, we would like to be flexible with the numbers. Therefore, I would like to suggest to keep the numbers the same in the contract and agree per e-mail that we would like to exchange 3 staff members in the academic years 2018 – 2020?

I hope this explanation clarifies the number of students and months in the contract. Please let me know if in this way you agree with the contract or would like to have written this down differently.

Please find attached the proposals. We have added the student mobility agreement, unsigned, as there were some changes. Please have a look at it. The Erasmus+ agreement, signed, is added as well.

I'm attaching the word version of the Erasmus+ agreement for your administration to make potential future changes easier. The PDF format is signed from our side.

If you agree, would you be so kind as to return the signed copies after it is signed by your representative?

Attached you can also find our information sheets.

Met vriendelijke groet,
With Kind regards,
