

Coproduction of Digital Platforms for Sustainability Governance

18-1-2017 WCSG Incubator

Aims of the Incubator

- This incubator aims to make an elaborate inventory and to reflect on methodological approaches to co-production of ICT-enabled environmental information systems and their implications across various domains of the WCSG.
- Exchange challenges and lessons of co-production of digital platforms for sustainability governance
- Explore potential for future collaboration
- A digital booklet for the WCSG website

Core team

Program
