

Introducing Viadrina....

European University Viadrina currently cooperates with over 270 partner Universities worldwide. Among them are institutions like the University of California – Berkeley, the Singapore Management University or the TEC the Monterrey in Mexico.

We offer 12 double degree programs in the area of business administration, e.g. with SGH Warsaw School of Economics and NEOMA Business School.

In terms of our student exchange number, we ranked 2nd place University in the latest Erasmus+ ranking of the DAAD in Germany. Viadrina is an innovative and international university with around 25% international students from over 90 countries (average at German Universities is 12%). The setting of the Viadrina on the German-Polish border with access to the capital Berlin makes it highly attractive for international students. Students can live and study in two countries - our campus in Poland is only a 10 minutes' walk from our German campus. We guarantee housing in our student dorms, which are situated on both sides of the Oder river while being very affordable (approx. 100-300€ per month). A student semester ticket allows to travel freely in Berlin and the federal state of Brandenburg and to enjoy the assets of Germany's capital, which is only a 1h commute by train. As a relatively small university, we offer excellent support for incoming students, also with the help of our active Erasmus Students Network group. The Faculty of Business Administration and Economics is ranked among the top 6 Business Faculties in Germany in the national ranking by the Center of Higher Education. It offers a high number of courses in English at bachelor as well as at master level. However, students are free to choose courses from all our faculties. In 2018 we were awarded the university with the highest number of new start-ups in Brandenburg.
